Kevin,

Let us both review what LDF requested from us. Are you working tomorrow?

Sherry A. Kamke

**Subject:** Tribal RSO funds

Hi Sherry,

I was thinking about those RSO funds for LDF, and I think we put that 10,000 in for a possible reopening of a LUST activity (the Tower Standard site). I talked to LDF when they were in for the Tribal meeting and they have accessed some money from BIA to do some investigating on their own before we look at reopening the State-lead site. So it looks like we won't need those funds unless Kevin had something else for LDF.

On another note, it seems like the new Outlook is running slow for me remotely and I have had to close out and reopen the mail page a few times.

Let me know if you have any questions on the above.

Bob
